Agusan del Norte

ABOUT ME

I'm a passionate mobile app and web developer with a Bachelor of Science in Information Technology (BSIT) degree and hands-on experience using React Native (Expo), React with TypeScript, Tailwind CSS, Laravel, PHP, and SQLite. I specialize in building end-to-end solutions — from sleek user interfaces to back-end systems like inventory, costing, and purchase order tools. Whether it's a business automation app or a responsive website, I deliver clean, scalable code and modern UI/UX design. I thrive on challenges and love turning ideas into fully functional, real-world applications.

WORK EXPERIENCE

Photocopy Shop Assistant 2022-2025

- Assisted customers with photocopy, printing, and scanning needs
- Ensured high-quality service and customer satisfaction

AIA Philippines August 2024 - November 2024

- Assisted in developing and maintaining the company website, improving user experience and functionality.
- Worked with HTML, CSS, JavaScript, and PHP to build dynamic web pages.
- Contributed to backend development using Laravel and managed databases.
- Tested and debugged the website to ensure optimal performance.

T-Mobeli Kitchens & Closets Inc. August 2024 - November 2024

- Developed an automated system to streamline product management, including inventory, costing, and purchase order systems.
- Utilized the Laravel framework to build and deploy the system locally for internal use.
- Created user-friendly interfaces to simplify data entry and improve efficiency for employees.
- Collaborated with the team to ensure smooth system implementation and functionality.
